

ACCESSORIES

ANESTHESIA MOUNTING INTERFACES

GCX works with anesthesia machine manufacturers to incorporate channel profiles for safely mounting medical devices and IT-related hardware. If existing channels don't work, GCX has options to accommodate other channel profiles.

GCX has more than 45 years' global experience creating fully configurable mounting solutions exclusively for the healthcare industry. GCX products are reliable, durable, cleanable, and safe, with a modular design for easy, cost-effective upgrades and adjustable positioning for enhanced workflow and user comfort.

Perioperative

MOUNTING SOLUTIONS

GCX lets surgical teams easily access equipment and IT components.

GCX MOUNTING SOLUTIONS HELP INTEGRATE TECHNOLOGY INTO PERIOPERATIVE ENVIRONMENTS.

Healthcare facilities equipped with GCX® mounting solutions enable providers to focus on their patients rather than technology placement. Standardizing with GCX products makes IT hardware facilitation and integration happen more quickly and smoothly while also lowering the total cost of ownership.

OR

Mounting solutions for IT workstations, tablets, PACS viewing, and large flat panel displays.

PACU

Mounting solutions for patient monitors and IT workstations at the bedside.
