

## Telehealth Solutions

HPA offers a diverse range of Telehealth solutions designed to facilitate seamless connections between healthcare professionals, whether they are consulting at the point-of-care or conducting remote consultations. Recognising that each healthcare facility has its own distinctive requirements, our solutions are entirely customised to meet the specific needs of every site.

Emphasis is on mobility, making use of our extensive fleet of versatile options such as standard, slimline, variable height, and powered carts, as well as roll stands. These solutions allow for the integration of a medical-grade computer or rugged tablet, combined with your preferred camera, seamlessly mounted onto the cart. The result is a truly unique and tailored Telehealth solution, ensuring the highest level of quality and convenience.

### Diverse Requirements

HPA offers a myriad of innovative conferencing technology solutions, and the following represents just a glimpse of the recent advancements we've delivered to our valued customers. With optional accessories available for all our carts, along with the flexibility to seamlessly integrate any camera or audio device, we create holistic and tailor-made solutions that cater to a wide range of needs.
