

Model S Non-powered Medical Cart

The world's first Slim Line Workstation On Wheels (WOW) is ideal for areas where space is a premium. The cart has an ultra slim base with a height adjustable column and innovative fold up, pivoting keyboard tray system. When the keyboard tray is down the cover acts as a document holder and when the cover is closed provides a convenient note taking surface. Lateral and rear handles enhances cart manouverability and provides added protection for the computer.

Applications:

- Critical Care
- Doctor Rounds
