

Wamee Power DC PLUS Battery System

High-performance external power solution

The Wamee Power DC PLUS Battery System is a high-performance, self-contained power management solution designed to provide reliable, long-lasting power for computers and peripherals on Workstations on Wheels (WoWs). With advanced engineering, this powerful solution offers an exceptional runtime of up to 28 hours on a single charge, ensuring continuous operation even in the busiest healthcare environments.

What makes DC PLUS stand out? Its modular battery cell pack enables seamless on-site maintenance, simple upgrades, and easy renewal of end-of-life systems, making it a future-proof investment.

By utilising cell matching and balancing algorithms, Wamee Power DC PLUS ensures each cell charges and discharges evenly, resulting in longer battery life and superior power management. With enhanced safety features and easy integration, it's the ideal solution for powering WoWs in healthcare settings, improving efficiency, mobility, and patient care.

Empower your workforce with Wamee Power DC PLUS—built for sustainability, reliability, and performance.

Features

- Fanless and robust design
- Up to 28 hours of operational run time
- A full charge covers two shifts requirements
- Medical grade EC60601-1
- Direct DC output for efficient energy usage
- LCD display with remaining runtime and battery capacity information
- Front or rear mounted
- Industry leading capacity warranty

Looking to extend the lifespan and boost the performance of your existing WoW fleet? Upgrading your GCX or Humanscale workstations with the Wamee Power DC PLUS Battery System is a quick, hassle-free solution that can be completed on-site in just 30 minutes. By choosing the DC PLUS upgrade, you'll not only lower costs but also contribute to environmental sustainability by reducing landfill waste.

Minimise downtime and bring your fleet up to speed with the latest in mobile power technology. Experience superior power performance, extended runtime, and future-proof flexibility, all while keeping your operations running smoothly and sustainably. The Wamee Power DC PLUS Battery System delivers superior power performance with extended runtime and future-ready flexibility. Its modular design, featuring exchangeable cell packs, ensures long-term cost savings and operational efficiency, all backed by a robust capacity warranty.

Enjoy a smarter, greener solution that keeps your operations running smoothly and sustainably, while positioning your fleet for the future.

Specifications

Charge time:	3 hours
Optional capacities:	Up to 720 Wh (28 hours of runtime)
Unit dimensions:	350 (h) x 260 (w) x 100 (d) mm
Unit weight:	6.5 kg
