

17" All-In-One Tablet with Roll Stand for Telehealth

A Mobile Telehealth Solution Built for Care Anywhere

Designed for seamless integration into existing healthcare environments, the 17" All-In-One Tablet with roll stand delivers a compact, mobile, and highly adaptable telehealth solution. At its core is the medical-grade 373T/MD high-resolution display, offering crisp, detailed visuals that support accurate and effective virtual consultations. Engineered with ergonomics in mind, this unit ensures smooth manoeuvrability and intuitive operation across diverse clinical settings – from emergency departments and intensive care units to aged care and outpatient clinics. Whether facilitating rapid assessments or ongoing care, this telehealth-ready unit brings flexibility, clarity, and reliability to the point of care.
